

Support the “We the People Act”!

Our Founders stated that all powers not given to the federal government in the Constitution are reserved to the states.

Yet for far too long, we have allowed Washington to dictate one-size-fits-all policies for the entire country in matters like the abortion debate.

Congressman Ron Paul’s “We the People Act” (H.R. 958 in Congress) takes away jurisdiction over abortion issues from federal courts and turns the decision back over to each state. This is how it was before *Roe v. Wade*, and it can be done without waiting for new judges and a new Supreme Court decision. H.R. 958 is a practical, direct approach to dealing with activist judges who legislate from the bench.

Contact your representative today at (202) 224-3121 and ask them to cosponsor H.R. 958, the “We the People Act.”

“A pro-life culture can be built only from the ground up, person by person... No Supreme Court ruling by itself can instill greater respect for life. And no Supreme Court justice can save our freedoms if we don’t fight for them ourselves.” - Congressman Ron Paul
