The Federal Reserve Banks, and the U.S. Treasury have put the American middle class and poor on the hook for over \$12 trillion in bailouts and loans to large corporations and banks. Chairman Ben Bernanke has flatly refused to tell Congress what it has done with trillions of dollars of our money.

"The powers vested in the Federal Reserve Board are highly dangerous and rest upon principles in the highest degree menacing to our prosperity, to stability in business, and to the general welfare of the people of the United States."

– Senator Henry Cabott Lodge, 1913 (Before the adoption of the Federal Reserve Act)

"The Federal Reserve is responsible neither to the people directly nor indirectly through the people's elected representatives."

– House of Representatives
Committee on Banking and
Currency, 1964
